EXPERIENCE:

Freelance Web Developer:

Bengaluru | *June 2023 – Present*

- **Vue.js**: Developed dynamic user interfaces, focusing on component structure, animation effects, and interactive UI elements.
- **Front-end Development**: Converted Figma designs to code using HTML, CSS, and JavaScript, ensuring responsive and visually appealing designs.
- **Java and JDBC**: Built database-driven applications using JDBC to perform CRUD operations with MySQL databases.
- **Android Studio Basics**: Worked with Android Studio for basic app development, debugging, and layout design using Logcat.

Lecturer

KET, Krishnagiri | *Sept 2020 – May 2023*

- Guided students in academic projects, seminars, and research initiatives in the field of Electronics and Communication Engineering.
- Facilitated technological applications and mentorship for students entering IT-related fields.

Service Engineer

Maintec, Chennai | *Jan 2020 – Aug 2020*

- Provided technical support and training to clients, focusing on troubleshooting and resolving software and hardware issues.
- Improved client communication skills, crucial for IT client management roles.

L2 System Support

Hathway, Bengaluru | *June 2019 – Dec 2019*
- Delivered Level 2 technical support for networking, system failures, and application errors.

- Diagnosed and resolved complex technical issues, enhancing customer satisfaction.
